75,000 Acres

OF GOOD

Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig Lewis County, New York

Said timber consisting of White Hemlock Spruce Pine and Hardwood. The subscribers own two large tannaries located on the aforesaid tract, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access being only from six to fifteen miles from both the Black River R.R. and Black River Canal which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River which extends through the tract is a large stream and empties into Black River where the aforesaid Canal leads into Black River. At this point or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power two might say right in the Canal and at the Depot to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap rate or the timber alone permitted.

AMERICAN AND FOREIGN PATENTS

R. H EDDY,

SOLICITOR OF PATENTS,

For Inventions Trade Marks or Designs,

No. 76 State Street, opposite Kilby Street Boston.

At an extensive practice of upwards of twenty years continues to secure patents in the United States, also in Great Britain, France and other foreign countries. Caveats Specifications, Assignments and all papers for Patents executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the validity of inventions

All necessity of a journey to Washington to procure a Patent, and the usual great delay there are here saved inventors.

TESTIMONIALS

I regard Mr Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON Commissioner of Patents.

I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

Mr. R. H EDDY has made for me THIRTY applications for Patents, having been successful in almost every case. Such unremitting zeal, great talent and ability as he has shown in the management of inventors to apply to him in preference to other patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

WASHING MACHINE!

With this Machine the entire washing of a family of eight or ten persons, can be done in twenty-five or thirty five minutes, or eight or ten shirts washed in from eight to twelve minutes; bedding, table linen, &c., similar economy. This machine CAN BE OPERATED WITH EASE BY A CHILD TEN OR TWELVE YEARS OLD.

Goods washed by this machine require no rubbing, and it is acknowledged by all who have tried it, that the goods are whiter and cleaner than when washed by hand.

This machine is light and easily handled, the cylinder is so constructed that it is removed by merely lifting from the boiler. The boiler can then be used for other purposes.

This machine has been thoroughly tested by the best housekeepers, hired girls and washerwomen, and they are universally pleased with it, which cannot be said of any other machine in the market.

We challenge its equal in thoroughness of execution and ease than it will stand the test as a perfect machine. We have one in constant operation

Proposals

For dredging in the Kennebec River Me

WILL be received at this office until 10 o'clock A M on Thursday the 4th day of May next for a channel through Hinckley's Shoal below Hallowell Maine requiring 10 000 cubic yards more or less of dredging, and

2d for a channel through Shepard's Point Shoal, Hallowell Shoal and Farrar Shoal near and above Hallowell Maine requiring 30 000 cubic yards (more or less) of dredging.

The material excavated must be deposited in such places in the river and in such manner as may be required by the Engineer in charge the distance of its transportation not to exceed three miles. Separate bids must be made for the above two items. Bidders will state the price per *cubic yard* to be measured *in the scows* which will also include the depositing of the material as required, it being understood that the amount of work to be done will not exceed the amount of the appropriation now available therefor.

The work must be commenced as soon as practicable after the approval of the contract and be completed not later than the 20th of November next.

Payments will be made monthly, 20 per cent to be reserved therefrom until the whole work is satisfactorily completed, and be forfeited in the event of the non fulfillment of the contract in the time and manner required. The undersigned reserves the right to reject the bid of any person who, there is reason to believe will not faithfully and promptly perform the contract.

Persons desiring to make proposals will please call on the undersigned, at his office in Morton Block Congress street for *forms* of same, and for more definite information. If desired, and on transmitting their bids will endorse thereon "Proposals for dredging Kennebec River."

THE

CENTRAL RAILROAD,

OF IOWA,

have now built and equipped, in first class manner, about

180 MILES OF RAILROAD,

which will complete their entire line with the exception of laying the track on twenty five miles which is already graded. They will thus open

THE FIRST THROUGH LINE ACROSS THE STATE

from north to south, and, by making a slight detour at one point, they will give

DIRECT COMMUNICATION BETWEEN ST PAUL AND ST PAUL

This line of Railroad will have very special advantages for both local and through business, besides such superior railroad connections as will secure to it a large portion of the carrying trade of the great Northwest. The

First Mortgage

7 Per Cent. Gold Bonds

which are issued upon this road are limited in amount to $16 000 per mile (while many roads same from $40 000 to $60 000) and are offered at 90 and accrued interest in currency. About two millions and a half of these bonds have already been disposed of leaving but a small balance unsold, which are being rapidly taken.

The most experienced financiers agree that First Mortgage Bonds to a limited amount upon a finished railroad which is well located for business are one of the very safest forms of investment.

Parties desiring to secure a first class security based upon a railroad practically done and in the hands of living capitalists who have a large pecuniary and business interest in its success will do well to apply at the office of the Company or any of its advertised agents for a pamphlet containing showing the characteristics of the enterprise.

Holders of Government Bonds may exchange them for Central Iowa at a large present profit, besides a handsome increase of interest for a long term of years. Parties making such exchange will receive for each $1 000 Bond a $1 000 Central Iowa Bond and the following difference in cash (less the accrued interest in currency upon the latter bond) and in annual interest, this calculation being based upon market prices of March 1st 1871

			Difference in Interest annually Paid in gold	Difference in Interest annually Paid in currency

HORACE GREELEY'S RELIGIOUS FAITH

A week or two ago, Mr Whitelaw Maigonald writing from Pittsburg to The Golden Age concerning Mr Greeley's contribution to that paper entitled "Reason in Religion" hope that the author would in a subsequent article explain more fully his views of the rank and function of Jesus Christ—or in other words that Mr Greeley would state definitely whether or not he held the orthodox and evangelical notion of Christ's divinity as contradistinguished from the Unitarian view of his humanity? Mr Magonigle who wrote from the extreme orthodox point of view said To me the most interesting of the many problems connected with the Christian religion is the early but still current question What think ye of Christ? And he added, The answer which Mr Greeley or any other great man would give to this question would awaken a lively interest in my mind.

The following statement of certain points in his religious faith, which Mr Greeley publishes in reply to the above queries, will be of interest to many who have heard such a variety of creeds ascribed to the Tribune editor.

I regret that my statement of religious faith in your last issue proves insufficient to some of your correspondents. One of his strangest objections to its seems to be the fact that a free religionist of the Concord type professed a willingness to accept it. Let us see if that objection may not be overcome.

I stated that I regarded Jesus of Nazareth as Son of God and Saviour of mankind. Mr Magonigle demurs to this that it leaves untouched the great problem whether in being man he was or was not also *more* than a man. That difficulty did not previously occur to my mind. I certainly meant in making my statement to set forth my belief that the Son of God was more than a man though less than the Eternal Author of the universe.

If I used terms that are equivocal and ambiguous the Evangelists have misled me. When Jesus asked his disciples Whom do ye say that I am? Simon Peter answering said Thou art Christ the Son of the Living God. Whereupon Jesus blessed Peter because flesh and blood had not revealed it to them but my Father who is in heaven (Matt xvi 15-17) Again declare that his Gospel is written that ye may believe that Jesus is the Christ, the Son of God and that believing you may have life in his name (John xx 31) And Philip when asked to make profession of his faith said I believe that Jesus Christ is the Son of God (Acts viii 37) and was thereupon received into the primitive church. I think Peter and others have erred in attempting to make a better creed than that which satisfied Peter John and Philip and was especially approved and blessed by Jesus himself (Matt xvi 16) I believe I do clearly see that this creed which seems to me to be too simple to need elaboration and to admit of no justification of any minority since Jesus and his Apostles approved it I must deem it sufficient even though it should result in my Magonigle I wish to refer to add nor subtract and no document or creed seemed to me to stand less in need of a glossary. To my mind it very plainly affirms that Jesus is less than God, yet more than man and so far from regretting this I may be deemed unable to show precisely why and how I am so. I rest content with what is revealed until it shall please God to reveal more.

Mr Magonigle sees fit to say that Mr Greeley does not believe in the Orthodox doctrine of future punishment. So much the worse for that doctrine. I believe in the Bible doctrine of future punishment and which I am aware that many passages of Scripture often quoted as teaching that doctrine refer to events occurring in this world. I hold that punishment for the sins of this life may and often does extend into the world beyond the grave. In fact I believe that God's government is and must be the same yesterday to day and forever and that wherever sin has existed does exist or shall exist, there will punishment be inflicted. And as many close thinkers have imputed and steeped in sin I cannot doubt that they receive punishment in a future state of being.

Yours HORACE GREELEY

ANNEXATION NOT A PARTY ISSUE

We have no doubt that the judicious mes[illegible] of the President, handing the whole [illegible] of territorial acquisition over to the people, has proved a most unwelcome doc[illegible] to the Democrats, who hoped to see the Santo Domingo project forced upon the Re[illegible] as an administration and party measure that would prove a fruitful source of [illegible] dissensions in our ranks which are the [illegible] of the opposition The simple but [illegible] sentences in which the President states the reasons which induced him to ad[illegible] the measure the extent to which he [illegible] to be his duty to urge its consid[illegible] by Congress and his entire willing[illegible] now that his motives have been so fully [illegible] to let the people decide the mat[illegible] themselves have served to disabuse [illegible] of any who imagined that a ques[illegible] upon which there is a wide diversity of [illegible] among Republicans would be pushed forward as a party issue

[illegible] interest excited upon the subject the [illegible] lack of popular information rel[illegible] to the land and the people proposed to [illegible] such intimate political rel[illegible] and the [illegible] hints and rumors of [illegible] which assailed the character of [illegible] with the negotiations fully war[illegible] the opinion of an impartial and [illegible] examination of all the facts The report of the Com[illegible] which all fling the most com[illegible] vituperation of the slanders so industri[illegible] circulated has also shown that the [illegible] which induced the President to [illegible] at an early date were of sufficient [illegible] to command the attention and favor [illegible] of intelligent and thoughtful men [illegible] from different sections of the coun[illegible] representatives of the intelligent senti[illegible] of the American people Indeed we [illegible] think the most ardent advocate of an [illegible] could have anticipated a verdict so [illegible] as that which has may be gathered from [illegible] report of Messrs Wade White and [illegible]

[illegible] observations and conclusions have [illegible] before the people and will receive [illegible] attention and respect to which their [illegible] entitles them They have each and [illegible] the responsibility resting [illegible] and rendered judgment upon [illegible] evidence Yet it must not [illegible] that the gentlemen were en[illegible] to secularity and that their views may [illegible] unconsciously influ[illegible] by the direct contact with a matter [illegible] they were obliged to act upon [illegible] will not be appreciated [illegible] the masses of this country who [illegible] the negative position of judging [illegible] action whatever is necessary or [illegible] the mere fact that annexation [illegible] generally advantageous were it [illegible] would not suffice to over[illegible] any who are opposed [illegible] and it will be difficult to present [illegible] such a light as to counter[illegible] difficulties and misconceptions [illegible] minds at the [illegible] incorporating the fraction of a [illegible] and inhabited by a people entirely [illegible] with our institutions into our [illegible] Aside from all questions [illegible] expected security from their [illegible] the most possessions on of the [illegible] Hayti and the United States the [illegible] complications arising from [illegible] the internal affairs of such [illegible] peculiar character would seem [illegible] to induce us to forc[illegible] advantages of a tropical [illegible]

[illegible] country has so far assimilated [illegible] to make the transition from [illegible] to [illegible] natural and easy the [illegible] on which our nation was [illegible] the peak from a generous welcome [illegible] communities we have upon our north[illegible] and every day brings their peo[illegible] more and more to transplant as nearer [illegible] We think it probable the Dominion [illegible] completely Americanized they [illegible] but little effort on our part [illegible] transfer will be marked by none [illegible] difficulties and collisions which fell [illegible] of disastrous [illegible] The foreign population that [illegible] by immigration is rapidly diffused [illegible] throughout the country as to which community [illegible] so readily harmonized with [illegible] and they were more in sympa[illegible] with our peculiar institutions and better [illegible] for the exercise of the functions of [illegible] government So far as annexations [illegible] the present we are convinced [illegible] that the Star of Empire beckons toward the North

[illegible] Domingo matter is now however [illegible] outside of politics and be[illegible] the people If they choose to call it up [illegible] for action they can do so and if they are not persuaded that the measure is expedient there is an ample time between now and December for to acquaint their representatives with their wishes We are glad that the Commis[illegible] was ordered that it has rendered a unan[illegible] report that the President has wisely [illegible] lightedly removed the subject from the [illegible] political arena by giving it into the hands of the people and we must confess that we are glad to believe that this action has practically disposed of the subject

The official record of inquests held in Mis[illegible] sippi shows the appalling total of one hun[illegible] and twenty eight murders since the date [illegible] reconstruction which include ninety mur[illegible] during the first months of Governor Al[illegible] administration—a ghastly average of [illegible] and a half per month and thirty eight [illegible] during the first two and a half months of the present year or an average of over fifteen murders per month And yet this official list of cases actually investigated does not include one half the number of the assassinations committed In the face of these bloody statistics the Governor's gratuitous assertion that the State authorities furnish ample protection to the citizens sounds like a shameless mockery In other States the record stands little better The Ku Klux of Florida have disposed of the last leading Republican in a county in which sixty members of that party have been murdered in two years by the assassination on Monday last of Mr. J Q Dickenson at Marianna, for no other offense than that of being a Republican and an office-holder These are the crimes which the Democracy would shield under the Constitution of the United States, and while the Republican representatives stand united in the purpose to grant protection to the life and liberty of every citizen we find the Democrats giving by speech and vote, their unanimous encouragement to the organized slaughter of peaceful, law abiding citizens. We are glad that the people can see the actual purpose of the two parties as they stand squarely confronting each other on the paramount issue

---

A slight error which occurred in the telegraphic version of the President's message accompanying the San Domingo report, was noticed by us at the time, but we were unwilling to tamper with the text by attempting to supply the omitted words. The newspaper report contained this sentence: "In view of the difference of opinion upon this subject, no action will be taken at the present session beyond printing and a general dissemination of the report." The passage as it was written, and as we find it in the Globe, is as follows: "In view of the difference of opinion upon this subject, I suggest that no action be taken at the present session, beyond the printing and general dissemination of the report." The matter is not important, but this correction may save some sharp Democratic critic from putting his foot in it

The Shellabarge bill, before its final passage in the House on Thursday, was modified by several amendments As it went to the Senate its main features are as follows The provisions of the civil rights act of 1866 are largely extended and all persons arrested for what are generally denominated Ku Klux outrages, are to be tried in United States courts When conspiracies or combinations obstruct the execution of laws, State or national, intended to secure personal rights and privileges the President in his discretion and without waiting for a call of State authorities, shall use the army and navy to put down such combinations and secure all classes of citizens in their rights In extreme cases of this sort, the President is also authorized to suspend the privileges of the writ of habeas corpus in accordance with the terms of what is known as the habeas corpus act of 1863—the provisions of this action to expire with June 1st, 1872 The final section, an amendment by Mr Hale, repeals the well known iron clad jury oath, and provides for purging juries of conspirators and Ku Klux sympathizers The bill passed by yeas 118, nays 91—the Republicans voting solidly in the affirmative, and carrying with them Edwards of Arkansas who was elected as a Democrat The bill has been most thoroughly and ably debated and as a consequence, the measure has been vastly improved, and the sentiment of the House on this subject, which was at most chaotic when the debate began, is now well defined and quite thoroughly disciplined There now seems a reasonable prospect that Congress may adjourn within two weeks

On Thursday morning the N Y Tribune was victimized by a sleepy compositor as follows

Rhode Island elects the Republican ticket for State officers, with the exception of Lieutenant Governor A Republican bolt on a fishing question and a third candidate prevented an election for Lieutenant Governor but the Legislature, *which is largely Democratic in both Houses*, will no doubt select the regular Republican candidate

The Standard thinks that if one half of the stories in circulation respecting Mr Greeley's freedom in the use of language when laboring under strong mental emotion are genuine the Tribune office must have been an extremely uncomfortable latitude on that morning

The great hall of the Cooper Institute was densely crowded Thursday evening by an audience composed of some of the wealthiest and most respectable citizens of New York city, who had assembled to protest against measures now before the State Legislature tending to still further increase the debt of the city and foster corruption in municipal affairs The meeting was called to order by Hon William E. Dodge Ex Mayor William E Havemeyer presided and in the list of officers are the names of William H Aspinwall, Henry Grinnell, Henry Clews, John Harper William Cullen Bryant James Lenox, Theodore W Dwight, Lloyd Aspinwall and many equally distinguished and influential Ex speakers were George C Barrett, the Honorable William M Evarts the Rev Henry Ward Beecher and the Rev Henry W Bellows who not only arraigned the corrupt politicians of Tammany Hall, but demonstrated with unanswerable logic the necessity of upholding the true republican theory of government, based upon the intelligence and integrity of the people Vigorous resolution were adopted and the earnestness manifested indicates a belief that the better classes of that misgoverned city have at last determined to assert their power

THE PENNSYLVANIA COAL RIOTS

THE MOB DESTROYING SHAFTS AND BREAKERS AND BURNING HOUSES—THE STATE MILITIA CALLED OUT BY THE GOVERNOR

The disorders at Scranton and elsewhere having increased to an alarming extent Gov Geary issued a proclamation, on Friday evening calling out the militia to suppress the coal rioters He says

The local authorities of Scranton having called on me for aid, I have invoked the military powers of the State to suppress the riots and mobs at Scranton and wherever else in the commonwealth such unlawful assemblages may be found and under the colour of law that the time has come for the complete settlement for the present and future of all lawful complications and difficulties under which the people now suffer I have also invoked the civil power of the State against railroad and other transportation companies for the misuse and abuse of their corporate rights and privileges, and will enforce all the remedies authorized by the laws of the land, and I call upon all military organizations to hold themselves in readiness to support the civic authorities whenever thereunto required, and upon all civic magistrates officers and citizens, in their several spheres of action or influence to sustain or enforce the laws against all the offenders in any wise responsible for the evils and wrongs under which we now suffer

During Friday afternoon the Scranton rioters, to the number of 1000, proceeded to Noyang and Clark coal breakers in the third ward of the city, and the men at work in the former were driven off They then set fire to the Noyang breaker and it burned to the ground In the evening one battalion of infantry and a section of artillery of the State guard and troops were quartered in the various halls in the city The troops are under the command of Major General Osborne an experienced officer of the late war Many of the miners are anxious to resume work, and would begin at once if they could be assured that they will be protected against the terrorism and the malignity of rioters The intention in calling out the military is render this protection

The following dispatches give later intelligence from the scene of the disorders

SCRANTON, Pa, April 8—2 a. m.

The greatest excitement prevails The bells are ringing and the streets are filled with people shouting fire and hurrying in the direction of Price's shaft. The miners have set fire to a new house belonging to David Mosher, a mining boss, on which the plaster ling was not finished, and burned it to the ground Of all the militia here it is said that only one company composed of Germans is trustworthy, the others being relations of he miners or sympathizers with them. The Governor intends to disarm two companies this morning and a serious collision is expected The miners yesterday threatened to sack the "Republican" office and the people are on he lookout for them, as it is thought that the burning of Mosher's house was only a feint to attract attention in that direction The men will resume at work at Tripp's slope this morning, a sufficient force being on hand to protect them Several miners were seen to run from Mosher's house into the bushes, after setting the place on fire The rioters threaten the Western Union Office because a message for troops had been sent over their wires, but a squad of soldiers frightened them.

LATER.—All is quiet in Lackawana this morning. Matters have been greatly exaggerated It is now asserted that no person was killed and but few hurt. The only trouble since yesterday was the burning of Mosher's house.

Garrett Davis could hardly have done anything to make himself a more ridiculous and contemptible reminder of a race and an epoch that are now happily gone by, than in asking the attention of the Senate to a repetition of his recent profane swaggering as if he feared that some member might have failed to hear his truculent oaths. The sole point and purpose of his tedious half hour of explanation was to show that Mr. Davis, on a former occasion in the Senate, swore twice as much as he had received the credit of doing in the Herald's report of the scene, while Mr. Butler had used no profane language at all, and to declare, what was not generally known before that he had invited Mr. Butler to fight a duel As an evidence, however, that he has not entirely failed in exciting admiration we no[illegible] the following enthusiastic editorial tribute to his heroism, in the Maine Standard

"There was Davis, very small, quite aged (over seventy) but vigorous, courageous and daring, only a little taller than Butler in his sitting position, deliberately daring to physical combat Butler, who is half as tall again, and weighs almost, if not quite, as much again as Davis"

A BOY TO CARRY PAPERS

Bear in Mind.

When disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming For all such maladies Hostetter's Stomach Bitters have been found unsurpassed By acting directly upon the digestive organs, they remove the heavy, disagreeable feeling after eating, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing and his general health improved.

Thousands of persons certify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The generality of Bitters are so disagreeable to the taste that they are objectionable to a weak stomach. This is not the case with Hostetter's Bitters, which will be found mild and extremely pleasant. Balsamic plants, barks and roots contribute their restorative juices to render it soothing and strengthening. Its basis is the only sure stimulant which has ever been produced, containing no fusil oil, or any other deleterious element. The most careful and skilful chemists have analyzed the Bitters, and pronounce them harmless. It is scientific testimony, but the testimony of the hundreds of thousands who have experienced the preventive and curative effects of the GREAT VEGETABLE TONIC and ALTERATIVE, at modern times, will more weaken its efficacy. For Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Female Complaints and general debility it is a sterling remedy as anything in the shape of medicine can be.

Soldiers of the War of 1812,

ATTENTION!

Congress has passed a law giving a Pension of $8 per month to the officers soldiers and Seamen of the war of 1812 who served six days or over and to the widows of such as have died, and who were married previous to 1815, thus doing justice to the brave and meritorious band of patriots I have all the rolls and records of this service, and they are not to be found at any other place in this State, to my knowledge

I will give every soldier the benefit of these records to establish his claim to a pension, and I will assist him in the prompt and speedy prosecution of his claim If the soldiers discharge is lost these records are invaluable

The fee is fixed by law at $10 no charge made unless a pension is obtained

A STRANGE SAIL.

The editor of the Cincinnati Commercial has been on the sentimental sea, and here is his rhyming version of the first "strange sail" What will he do when he sees a dozen?

There came to town last Tuesday eve,
The strangest little craft
Such as you may search o'er your eyes believe—
Search not—you would I have laughed!
So true and true the unknown sea,
A rose the raging water;
She came in sight and to love in me—
My daughter! Oh, my daughter!

I was sick for such a tiny sail
To leave the shores of human
To cleave the waves and brave the gale—
It disturbs almost my calm.
But thanks to Him who rides the wave
Of spring breeze caught her,
A heavenlier from a watery grave—
My daughter Oh my daughter!

Behind the craft is a boy, is
Of love, breath of life
Mine, my blood has ris
Mine—cannot hold it!
Take it, take it! I insure you to
Act as yours truly, daughter—
Some day I'll send to you
My daughter Oh my daughter!

The little prey crowing thing
In a cauldy to fuler
But only see pipe without a wing!
Calling of my Mary!
He is a ship of loveliness
I sore already thought her
Great beauty I'll and grace—
My daughter Oh my daughter

Where cease the theme?
Shall wait in new turning
Awake or fold dream?
When wake this tender yearning?
From her snowy bed
Shall hands have caught her
Shall mouth her feet her head?
My daughter Oh my daughter!

A Few, Wonderful and Useful Invention,

CALLED A

T'dal Power,

Has been discovered at the expense of many years study and experiment, which will revolutionize the method of obtaining power for driving machinery of all kinds

Although this power is obtained from the rise and fall of the tides, machinery can be driven at a long distance from the seat of power by this invention, by means of a wire rope which snow is common use for similar purposes

This Machinery is so simple and occupies so little room that it can be erected on any wharf and the expense of the Machinery very trifling compared to other power

It will run for years without any expense and without any person to tend it, the power being continuous y obtained night and day if desired, a continuous w being sufficient to drive light machinery

This power can easily and effectually be applied to ring Fire Bells, saving the Government thousands of dollars yearly needing no attention after being once set in motion.

The principle by which a continuous motion of the Main Shaft is insured in a given direction, can also be applied to Sewing Machines and prevent the possibility of the machine changing to the trouble some backward motion which breaks the thread

By using this process on Sewing Machines, both hands of the operator are entirely at liberty to hold the work. Children can run them without trouble.

In manufacturing Sewing Machines for the future the Balance Wheels can be entirely dispensed with, economically making a great saving in the manufacturing. This principle can be applied to every machine at a trifling cost

The application of this principle can also be made to foot Lathes, the motion of the foot being hardly percept ible and more speed attained than with the crank It also saves the motion of the body when propelling the machine, and leaves the small

The "Close Treadle" for Sewing Machines, constructed to embody the above named principle and capable of being applied to sewing machines of any size, kind, or shape, are now being manufactured, and in a few days may be seen, at the clothing store of E. O. Smart on Exchange Street, in operation attached to a sewing machine from the manufactory of B F Howe, successor to the late A. B. Howe, the originator of the "Improved Howe Sewing Machine."

A license to manufacture and sell ten thousand of the "Close Treadle" having been granted to A E Kimball, Agent for the "Improved Howe Sewing Machine," he will immediately furnish them to this market through his agents, who will apply them to machines, of any manufacture, at prices so low that every person owning a Sewing Machine will be sure to have one

He is a skillful and valuable inventor, and is worthy the patronage of all sewing women

Letters Patent were issued to the inventor bearing date December 20th, 1870, obtained through the agency of Munn & Co. of this City
